Property Description

The truly irreplaceable, 270-degree views that Oceanica 828 offers are only possible due to its unique position, perched on the fourth story of the single high-rise that offers an obstructed perspective down the white sand of Flamingo itself. Its stunning views are only part of the picture - the condo (2BR/2BA, 1300 sf) has been completely upgraded through a remodel project that resulted in one of Flamingo's best contemporary condos. Walls and cabinetry were removed to create perfectly open spaces; a modern aesthetic was executed in style, from the core to the high-end finishes, smart appliances and custom cabinetry. Let's discuss the views further - looking west from the main balcony, a breathtaking view of the Pacific stretches from your feet to the horizon - most people actually gasp when they see this angle alone. Whales are easy to spot in the endless stretches of water and sunsets are perfect every day of the year.
