Property Description

The ocean view house is located in Nosara Hills, a private residential community just above the center of Nosara surrounded by undeveloped forest. Built in 2018, the home offers 187 sqm of living space: 3 bedrooms, 2 bathrooms, large doors and numerous windows to take advantage of the cool mountain breeze. The pool and terrace measure an extra 50 sqm. From every room of the house you have a breathtaking view of the sea as well as the mountains. Watching the sunset from the saltwater pool is especially spectacular. The modern architectural design offers clean lines and lots of light. The native hardwood furniture complements the design of the house and the location. A covered two-car garage and thoughtful layout provide plenty of storage. A solar system provides free hot water, and the green roof keeps the house cool naturally. This is a great home that you don't want to miss. Contact us today!
