Property Description

If you are looking to invest in the Tamarindo area and are still looking for some value for money, the area of Los Jobos is probably your best bet. The bustling tourist town of Tamarindo has and will continue to grow, post COVID prices have however made the market a little tough for the average buyer. However there is some good news here, the natural growth trajectory for Tamarindo is to the East in the form of Los Jobos and for now the prices in this area are much more sensible! There are currently a number of single family homes, small hotels and businesses in this area with some residential condominiums also coming to the market soon. This area is the next pace to be. With city water and electricity, fibre optic wifi and great access to Tamarindo and the beach as well as the outer Tamarindo villages/towns/beaches there is not better place to invest at this time. The lot itself is perfect to build a single family home with a casita or a private compound.
