Property Description

These upscale villas are nestled in the Uvita jungle minutes from the beach and town center of Uvita. Imagine waking up every morning to your own rainforest jungle and wildlife. The property consists of three villas, making it ideal for a family compound, small retreat center, or vacation rental. Currently, the villas are being completely remodeled just like new and the builder anticipates them to be completed by March of 2023! Each of the three buildings features Balinese décor with natural rock materials with a total of five bedrooms and four and a half bathrooms. Each room features high-beam ceilings, ceiling fans, and air-conditioning units to keep you cool. The main house includes three bedrooms, one on the ground level with an en-suite and two bedrooms on the second floor with en-suites. The kitchen will feature granite countertops, stainless steel appliances, and built-in shelving.
